HEALTH QUALITY PARTNERS OF SOUTHERN CALIFORNIA

Working to Deliver Better Health Outcomes and Healthier Lives.

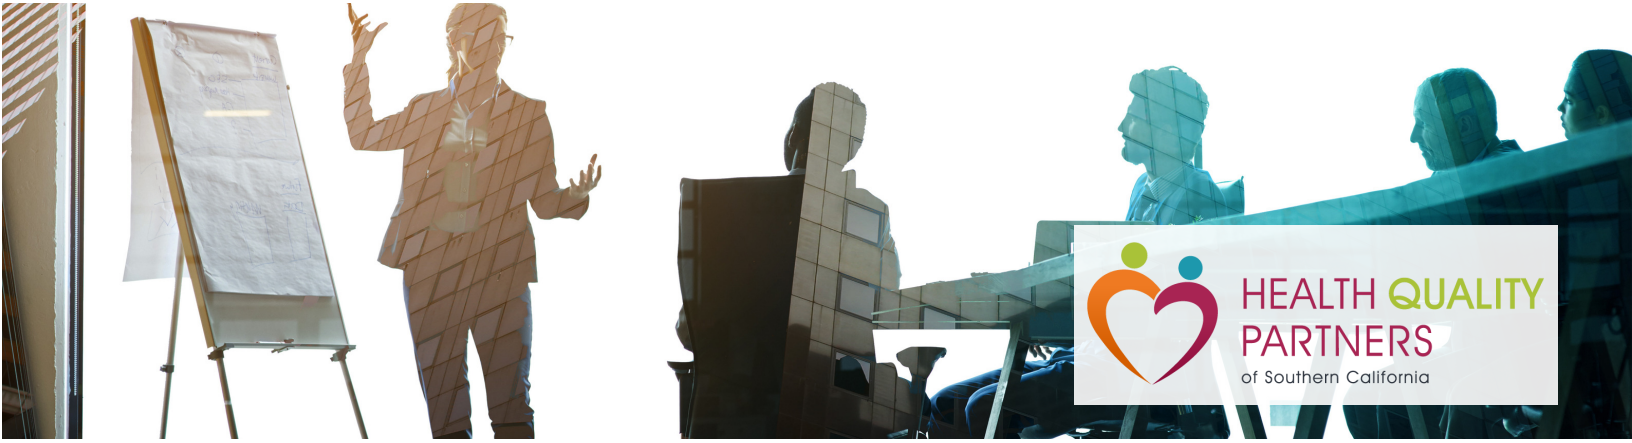

Health Quality Partners of Southern California (HQP), a subsidiary of Health Center Partners of Southern California (HCP) supports community health centers and other safety net providers in taking the best possible care of their patients.

HQP accomplishes this through the development and implementation of a broad portfolio of innovative and collaborative grant-funded programs and research projects that focus on improving efficient and effective access to care, patient engagement, quality of care and clinical outcomes.

HQP believes quality health care is a right, and collaboration and resources are essential to meeting this basic need.

A Leader in Health Program Development and Implementation

- Trusted partner with a successful track record in grant-funded program administration.
- Implementing progressive, collaborative programs with health centers and other safety net partners, resulting in improved access to care, quality health outcomes and operational efficiencies.

Targeting the Right Patient Population

- Safety net population consisting of 827,000+ patients in San Diego, Riverside and Imperial.
- An ethnically diverse patient base with which to implement programs and conduct research.

Developing the Research and Program Agenda for the 21st Century

- We will work with you to ensure we are addressing the issues of the day.
- Unique ability to develop and participate in key research initiatives.
- Brings health center members and safety net providers key resources to implement programs.

Superior Program Management Capabilities

- Largest California-based consortia team of experienced and talented professionals.
- HQP allows funders to work with numerous health centers and other safety net providers in a single contract, leveraging economies of scale.
- Strong auditing capabilities so you can feel confident funds are being spent the right way.

Innovative, Diverse Initiatives

- Behavioral health integration, both intra-clinic and cross-system.
- Medical and dental integration.
- Administration of funding for diagnostic and treatment services for uninsured individuals (breast health screening and diagnostic services, behavioral health and oral health).
- Outreach, education, and enrollment for Medi-Cal expansion and Covered California.
- Clinical Quality Initiatives (e.g. diabetes, hypertension).
- Data aggregation and analysis to support population health management.
